The Asia Pacific Interior Design Awards receive about 600 entries from Asian countries each year. One Gold Award, one Silver Award, one Bronze Award and several Excellence Awards are chosen for 13 categories this year. The awards ceremony was held in Hong Kong on November 21 this year.

NOMURA has won awards at the APIDA for four consecutive years starting with the W Guangzhou FEI in 2013, the Toyota Commemorative Museum of Industry and Technology in 2014, and the Yasukawa Innovation Center in 2015. NOMURA's creative capability continues to be being highly acclaimed throughout Japan and the rest of Asia as well.

We at NOMURA would like to take this opportunity to thank all of our clients as well as the many others whose support and cooperation have made these awards possible. We will continue to delight and excite going forward by creating environments that attract large numbers of customers.

■Asia Pacific Interior Design Awards (APIDA)

The awards are organized by the Interior Design Association of Hong Kong (HKIDA). They are a leading award of Asia evaluating projects from the perspectives of innovation, functionality, and space planning. The APIDA, which are marking their 24th anniversary this year, continue to promote professional standards and ethics in the practice of interior design and acknowledge deserving projects and designers throughout the Asia Pacific Region.
